

17. Ocean Boulevard, Florida – \$100 Million

It's not exactly surprising that there is more than one Ocean Boulevard home on this list. The sandy stretch on Golden Beach is populated by a number of stunning multimillion-dollar pads. Case in point: this newly built family retreat. The tastefully designed abode is billed as “the most amazing new offering in Manalapan.” Sitting on just over two acres, the elegant compound offers a generous 17,300 square feet of living space and sweeping ocean views. There are a total of nine bedrooms spread between the main residence and the guest house. You can also expect spectacular finishes and furnishings, naturally.
